INTERNSHIPS

MERN Stack Intern   **2025**

Developed MERN-stack web applications using MongoDB, Express.js, React.js, and Node.js. Gained practical experience in building scalable and efficient web solutions during this intensive 28-day internship.

Modern Full-Stack Development Intern   **2025**

Built and deployed a full-stack web application using Next.js, MongoDB, and Tailwind CSS. Gained hands-on experience in building responsive UI, handling API routes, and integrating frontend with backend logic during this 15-day internship.

PROJECTS

Personal Reading Progress Log : Link   **2025**

 Tech Stack: Next.js (App Router), MongoDB, Plain CSS, JWT Auth

Developed a full-stack web application to track reading progress, set goals, and monitor reading habits. Key features include logging books, updating progress, adding notes/quotes/reviews, and a personal dashboard. It uses JWT authentication for secure user access.

Pictoria : **Link**   **2025**

 Tech Stack: React, Node.js, Express, MongoDB, Cloudinary, Unsplash API

Built a full-featured image platform where users can upload, search, like, and save images to collections. Integrated Cloudinary for storing user images and Unsplash API for external image search, with interactive UI overlays and user authentication.
