INTERNSHIPS

MERN Stack Intern	2025
Developed MERN-stack web applications using MongoDB, Express.js, React.js, and Node.js. Gained practical experience in building scalable and efficient web solutions during this intensive 28-day internship.	
Modern Full-Stack Development Intern	2025
Built and deployed a full-stack web application using Next.js, MongoDB, and Tailwind CSS. Gained hands-on experience in building responsive UI, handling API routes, and integrating frontend with backend logic during this 15-day internship.	

PROJECTS

Personal Reading Progress Log : Link	2025
Tech Stack: Next.js (App Router), MongoDB, Plain CSS, JWT Auth	
Developed a full-stack web application to track reading progress, set goals, and monitor reading habits. Key features include logging books, updating progress, adding notes/quotes/reviews, and a personal dashboard. It uses JWT authentication for secure user access.	
Pictoria : Link	2025
Tech Stack: React, Node.js, Express, MongoDB, Cloudinary, Unsplash API	
Built a full-featured image platform where users can upload, search, like, and save images to collections. Integrated Cloudinary for storing user images and Unsplash API for external image search, with interactive UI overlays and user authentication.	
Skill Exchange : Link	2026
Tech Stack: React, Node.js, Express, MongoDB, Socket.IO, JWT Auth, Plain CSS	
Developed a full-stack peer-to-peer web application where users can match and exchange skills. Key features include a custom matching algorithm that recommends users based on reciprocal learning interests, real-time messaging with Socket.IO and a post-session rating and review system. It uses JWT authentication for secure user access and features a custom dark-mode dashboard.	

TECHNICAL SKILLS

Languages: C++, HTML, CSS, JavaScript
Full Stack: MERN, Next.js
